Mark Goss

General Manager, Operations

Exhibition Place

Mark Goss is a Professional Engineer working in the capacity of General Manager, Operations with the Board of Governors of Exhibition Place. He is directly responsible for the physical maintenance of the buildings on the 192 acre parkland, including but not limited to; Capital Works projects, Building and Site Maintenance, all building trades and electrical trade show installation.

His previous work experience includes: Pharmaceutical Plant expansion and maintenance, Food Process engineering, Brewery design and construction, HVAC installation, service and maintenance and Hospital Systems maintenance. Mark has held senior management positions at Molson's Breweries, Christie Brown Nabisco, Nestles Canada and Apotex,

Mark is continually involved in a number of energy initiatives involving Toronto Atmospheric Fund, Toronto Better Buildings Partnership, LEED Projects, FCM, City of Toronto and LightSavers. The focus of these projects is to develop and install Energy Savings initiatives such as 100kw photo voltaic installation, 1.6 Megawatt trigeneration systems and geothermal initiative.

Mark graduated from McMaster University where he obtained a degree in Bachelor of Mechanical Engineering.

Mark is a member of the Professional Engineers of Ontario, BOMA, CAEM, International Society of Pharmaceutical Engineering and Master Brewers Association of Canada.
